

Air Compressor Bracket – Kit to suit a Jeep Wrangler JL/Gladiator JT

This kit provides the bracket and all the components and accessories required for a fully operational compressor for the Jeep Wrangler JL and Gladiator JT series.

The mounting bracket has been developed using the latest 3D modelling software and is designed to fit into the small area available in the driver side rear corner of the engine bay, this design and location helps save valuable cargo space and utilises existing mounting holes for an easy and secure fitment with no drilling required.

The manifold tank built into the ARB single compressor allows for fitment of a solenoid for fitment of an ARB Air Locker and LINX Vehicle Accessory interface for the ultimate off-road capability.

Features:

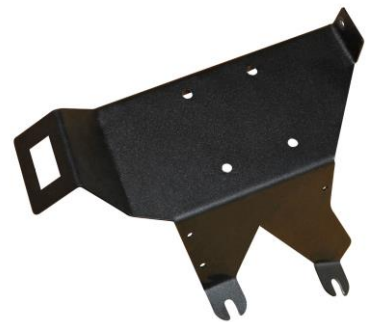

- Laser cut from zinc coated 2 mm steel
- Powder coated in a black textured finish for rust protection
- Use of pre-existing holes. No drilling required.

Includes:

- Fitting kit including all hardware and fasteners required for fitment
- TLR Products Air Compressor Bracket
- ARB Single Air Compressor
- ARB Pump Up Kit

Note:

- Fits Jeep Wrangler JL and Gladiator JT
- Will not fit diesel models
- Compatible with right hand drive models only
- Weight: 7.1 kg
- Dimensions: 300 x 200 x 200 mm
- Warranty: 3 years
- Fitting time: approx. 60 mins

TLR Products is Australian owned, with all manufactured products designed and made in Newcastle, NSW.
