

Aerial Bracket – RHS Bonnet Hinge to suit Ford Ranger/Ranger Raptor/ Everest RA Series

This Aerial Bracket is designed to mount to the Right-hand side bonnet hinge of the Ford Ranger, Ranger Raptor and Everest Next Gen range.

This mount is the perfect option for mounting a UHF aerial to your vehicle if you do not have a bull bar installed, an alternate mounting option or even to mount small lights.

The mounting bracket is manufactured from 4 mm stainless steel and utilises existing mounting holes and requires no drilling or modification to the vehicle for installation.

Features:

- Laser cut from 4 mm stainless steel.
- Powder coated in a black textured finish for added corrosion resistance.
- Easy fitment with no drilling or modification required.
- Utilises existing OEM mounting bolts.

Includes:

- 1 x TLR Products Aerial Bracket
- Fitting kit including all hardware and fasteners required for fitment.

Note:

- Weight: .5 kgs
- Dimensions: 200 x 60 x 60 mm
- Warranty: 3 years
- Fitting time: 20 mins
- Mounting bracket only, Aerial's sold separately.

TLR Products is Australian owned, with all manufactured products designed and made in Newcastle, NSW.
