

Aerial Bracket – LHS Bonnet Hinge to suit Mitsubishi Triton MV Series

This Aerial Bracket is designed to mount to the left-hand side bonnet hinge of the Mitsubishi Triton MV series (also known as the New-Gen Triton)

This bracket is the perfect option for mounting a UHF Aerial to your vehicle if you do not have a bull bar installed, an alternate mounting option or even to mounting of small Ditch Lights.

The mounting bracket is manufactured from 4 mm stainless steel and utilizes existing mounting holes and requires no drilling or modification to the vehicle for installation.

If installing Ditch Lights, it is recommended to use the TLR Products TLR740001 Adapter Washer Set (Sold Separately).

Features:

- Laser cut from 4 mm stainless steel.
- Powder coated in a black textured finish for added corrosion resistance.
- Easy fitment with no drilling or modification required.
- Utilises existing OEM mounting bolts.

Includes:

- 1 x TLR Products Aerial Bracket
- Fitting kit including all hardware and fasteners required for fitment.

Note:

- Weight: 0.5 kgs
- Dimensions: 200 x 60 x 60 mm
- Warranty: 3 years
- Fitting time: 20 mins
- Mounting Bracket only, Aerial's sold separately.

TLR Products is Australian owned, with all manufactured products designed and made in Newcastle, NSW.
