

Air Compressor Bracket to suit a Ford Ranger/ Everest Next Gen

This TLR Products Air Compressor Bracket is designed to suit the Ford Next Gen series of vehicles including all Ranger and Everest variants with V6 or 4 Cylinder Engines. Does not fit Ranger Raptor variant.

The mounting bracket has been developed using the latest 3D modelling software and seamlessly fits the ARB Single Air Compressor in the open space between the engine and radiator support panel. It features dedicated provisions for securely mounting both the Air Coupling and Electrical Switch along the top panel, ensuring easy access for operation and convenience.

This bracket set includes a comprehensive kit for installing all bracket components, although the additional ARB components listed below are recommended for a complete operational compressor installation:

- 1x ARB Single Air Compressor (CKMA12)
- 1x ARB Pump up Kit (171302V2)
- 1x ARB 45 Degree Elbow JIC4 (0740109)
- 1x ARB 1/4 NPT Adapter (0740101)
- 1x ARB Air Hose 0.2m (0740200)
- 1x ARB Air Coupling JIC4 (0740111)

Features:

- Switch and Coupling Mounting Panel.
- Suits fitment of the ARB Single Air Compressor (CKMA12)
- Laser cut from zinc coated 2.00 mm steel.
- Powder coated in a black texture finish for added corrosion resistance and aesthetics.

Includes:

- TLR Products Compressor Bracket set.
- Fitting kit including all hardware and fasteners required for fitment.

Note:

- Weight: 1.1 kg
- Dimensions: 470 x 150 x 70 mm
- Warranty: 3 years
- Fitting time: 30 mins
- Compressor and Air fittings sold separately
- Does not fit Ranger Raptor variant.
- Compatible with the ARB Dual battery system (PN#4340130) including the BCDC Mounting Bracket.

TLR Products is Australian owned, with all manufactured products designed and made in Newcastle, NSW.
