

Aerial Bracket to suit Toyota Tundra XK70 (3rd Gen)

The Toyota Tundra XK70 Aerial Bracket is available in a Left-Hand Side (TLR742301) or Right-Hand Side (TLR742302) option.

Ideal for vehicles without a Bull Bar or for those looking for an alternate mounting location, this bracket offers a clean and practical solution for installing both a UHF Aerial and a small Ditch Light. It includes an additional mounting hole, allowing both to be installed from a single mounting bracket.

The bracket has been designed to position the Aerial out of the driver's line of sight, helping maintain clear visibility while driving.

Manufactured from durable 4 mm Stainless Steel to ensure quality and longevity of the product. Installation is quick and easy, utilising existing factory mounting points with no drilling or vehicle modifications required.

Features:

- Laser-cut from 4.00mm Stainless Steel.
- Black Textured Powder coating for aesthetics and enhance durability.
- Easy fitment with no drilling or modification required.
- Utilises existing OEM mounting bolts.
- Supports both UHF aerial and ditch lights in a single bracket.

Includes:

- 1 x TLR Products Aerial Bracket
- Fitting kit including all hardware and fasteners required for fitment.

Note:

- Weight: 0.5 kgs
- Dimensions: 250 x 145 x 75 mm
- Warranty: 3 years
- Fitting time: 20 mins
- Mounting Bracket only, Aerial's sold separately.
