

Air Compressor Bracket to suit a Toyota Prado 250 Series

The TLR Products Air Compressor Bracket provides a clean and practical solution for securely mounting your ARB **Brushless** or **Brushed, Twin** or **Single** Air Compressor. This bracket set also includes a dedicated mount for the electrical switch and air coupling.

Designed to fit within the open space behind the rear left-hand side inner guard, the bracket positions the compressor far enough back to retain usable storage and leaving room for accessories such as an air hose or tire inflator to be stored conveniently within the compartment. It also ensures adequate ventilation around the compressor when the compartment door is open during use.

For added versatility, TLR Products offers a compatible [Air Tank Mounting Bracket \(TLR682106\)](#) which includes a high-mount switch and coupling bracket.

Additional Components Required for installation (All Sold Separately or included in our [Complete Kit TLR682108](#)).

- 1x Preferred Choice of ARB Air Compressor.
- 1x ARB Pump Up Kit **(171302V2)**
- 1x ARB Hose Reinforced JIC-4 0.3 Meter **(0740201)**
- 1x ARB Adapter Fitting **(0740104)**
- 1x ARB Air Coupling **(0740111)**

Features:
