

# Air Compressor Bracket to suit a Toyota Prado 250 Series

This TLR Products Bracket lets you mount an ARB **Brushless** OR **Brushed** Twin Compressor under the body of your Toyota Prado 250 Series. It fits all variants and installs using existing holes with no drilling or modification to the vehicle needed for mounting this bracket.

The bracket fits neatly above the spare wheel and includes parts to relocate the compressor's intake filters into the inner guard, helping to protect against water ingress.

Additional Components Required for installation (All Sold Separately or included in our Complete Kit).

- ARB Air Compressor of choice.
- ARB Braided Hose Reinforced JIC-4 2 meters **(0740205)**
- ARB Elbow JIC-04 (M) - JIC-04 (F) **(0740104)**
- ARB Air coupling **(0740111)**
- ARB Pump Up Kit V2. **(171302V2)**

## Features:

- Suits both ARB **Brushless** OR **Brushed**, **Twin** OR **Single** Air Compressor models.
- Mounts neatly under the body, above the spare wheel.
- Laser cut from zinc-coated 2.00mm steel.
- Powder coated in a black textured finish for rust protection.
- Use of pre-existing holes. No drilling of the body work required.
- Electrical Switch and Coupling mount included.

## Includes:

- Products Compressor Bracket set.
- Air intake filter relocation fittings, hose and clamps.
- Switch and Air coupling facia bracket.
- Interior plastic cut template.
- Comprehensive fastener kit.

## Note:

- Weight: 5 kg
- Dimensions: 520 x 160 x 420 mm
- Warranty: 3 years
- Fitting time: 60 mins for Bracket
- Additional ARB fittings, Air Hoses and Compressors sold separately.
