

Air Tank Bracket to suit a Toyota Prado 250 Series

Prerequisites for mounting this bracket included - fitment of TLR682103 Toyota Prado 250 series inner guard compressor bracket.

The TLR Products Air Tank Mount is the perfect companion to the TLR Compressor Bracket, designed to neatly and securely mount the ARB 4L Air Tank in the rear quarter location. Designed for a seamless fit, this bracket attaches directly to the compressor mounting setup and utilizes some OE mounting points to brace the mount, ensuring a compact and efficient layout hidden behind the interior trim panel.

This kit also includes a high-mount switch and coupling bracket, designed to position the coupling and operational switch conveniently behind the bottle jack access hatch, keeping everything easily accessible yet out of the way.

NOTE: This bracket set does require removal of the OE Bottle Jack.

Features:

- Laser cut from zinc-coated 2.00mm steel.
- Mounts within the rear quarter panel for space efficiency and low visual impact.
- Includes a high-mount switch and air coupling bracket, positioned behind the **Bottle Jack Hatch** for discreet, user-friendly access.
- Powder coated in a black textured finish for rust protection.
- Use of pre-existing holes. No drilling of the body work required.

Includes:

- TLR Products Air Tank Bracket set.
- Fitting kit including all hardware and fasteners required for fitment.

Note:

- Weight: 2 kg
- Dimensions: 350 x 260 x 80 mm
- Warranty: 3 years
- Fitting time: 20 mins
- This is the Mounting bracket set only, ARB Air Tank Sold Separately
