

# Aerial Bracket to suit Nissan Navara D23 (NP300)

This purpose-built bonnet hinge bracket is designed to mount seamlessly to the Right-hand side of the Nissan Navara D23 (also known as the NP300).

Ideal for vehicles without a bull bar or for those looking for an alternate mounting location, this bracket offers a clean and practical solution for installing both a UHF aerial and a small ditch light. It includes an additional mounting hole, allowing both to be installed from a single mounting bracket.

The bracket has been designed to position the aerial out of the driver's line of sight, helping maintain clear visibility while driving.

Manufactured from durable 4 mm stainless steel to ensure quality and longevity of the product. Installation is quick and easy, utilising existing factory mounting points with no drilling or vehicle modifications required.

## Features:

- Laser-cut from 4.00mm Stainless Steel.
- Powder coated in a black textured finish for added corrosion resistance and aesthetics.
- Easy fitment with no drilling or modification required.
- Utilizes existing OEM mounting bolts.
- Supports both UHF aerial and ditch lights in a single bracket.

## Includes:

- 1 x TLR Products Aerial Bracket
- Fitting kit including all hardware and fasteners required for fitment

## Note:

- Weight: 0.5 kgs
- Dimensions: 300 x 180 x 60 mm
- Warranty: 3 years
- Fitting time: 20 mins
- Mounting Bracket only, Aerial's sold separately.
