

Electrical Accessory Fuse Bracket to suit a Nissan Navara NP300 OEM Battery Location

This TLR Products Accessory Fuse Bracket is a neat and practical solution for mounting electrical accessories in your engine bay.

Designed specifically to suit the OEM battery location in the Nissan Navara D23 (NP300), the bracket mounts securely on top of the battery using existing OEM hardware. The bracket features various pre-cut mounting holes to suit different electrical components in multiple configurations. Integrated cable tie slots help maintain a clean and organised wiring setup.

The pre-cut holes allow for fitting:

- Single Midi Fuse Holders
- Twin Midi Fuse Holders
- 12v Circuit Breakers
- Electrical Relays
- Buzz Bar
- Terminal Posts

Features:

- **Durable Design** - Laser cut from 1.5 mm stainless steel and powder coated in a textured black finish to provide superior corrosion resistance.
- **Hassle Free Installation** - using factory mounting points—no drilling or modifications required.
- **Versatile Layout** - supports multiple accessory layouts to suit a wide range of 12V setups

Includes:

- 1 x TLR Products Electrical Accessory Bracket

Note:

- Weight: 0.8 kg
- Dimensions: 280 x 200 x 60 mm
- Warranty: 3 years
- Fitting time: 15 mins
- Bracket only, all accessories sold separately.

TLR Products is Australian owned, with all manufactured products designed and made in Newcastle, NSW.
